6	Nurse Prescribing, Telephone Triage, Minor Ailments	Feb 12, 2013 5:00 PM
7	I would like some sort of career path with scope to progress my role . Access to a clinical nurse leader (not attached to the surgery) to discuss my career/opportunities & ideas to progress would be useful. Also an easier way to gain a degree from my previous study with some relevant modules added on would be great.	Feb 12, 2013 4:47 PM

**Page 5, Q46. Do you have any ideas for innovative ways to expand your role?**

1	Yes	Mar 5, 2013 4:47 PM
2	group work with clients re cdm and health issues weight/smoking	Mar 5, 2013 12:38 PM
3	This is very difficult to arrange all clinics fully booked & with no colleagues you cannot delegate to enable you to attend.	Feb 14, 2013 2:44 PM
4	I feel too tired and overworked to consider anything else at the moment! Perhaps I have answered this on the wrong day!	Feb 14, 2013 10:28 AM
5	Before looking at new innovations I feel there is so much to improve upon re. basic communication/info sharing with secondary care & other community services as there is alot of duplication .Many patients are not aware which professionals are attached to which particular service & are perplexed to realise that we don't seem to talk to each other. The Integrated care teams/graphnet system will help with this but only with a few chosen patients & will take alot of time to populate. I would like to use email more for communicating with patients eg. younger asthmatics that do not come in for review as currently alot of nursing hours are spent printing recall letters/ phoning pts who have often changed their telephone number & not informed us. In terms of chronic disease management I would like to improve the quality of holistic care given re. spending more time with one patient to address all their concerns/types of disease rather than bringing them in to the surgery numerous times. QOF can be a hinderence re. chasing points in a quick appointment rather than adressing what matters to the individual patient. I feel that Practice nurses in Manchester are largely an experienced group but sometimes lack the confidence/group cohesion necessary to strengthen our voice within the CCG. The idea of limiting the PN Lead role to 1 day a week does not increase my faith that we are seen as a very important cog in the wheel!	Feb 12, 2013 5:19 PM
6	i was a smear trainer and took etensive training for this role. I haven't used my skills for a number of years as the PCT said there wasn't any funding and I wasn't prepared to do it for charity!!!!	Feb 12, 2013 4:00 PM

**Page 7, Q51. How effective do you think the Central Manchester Practice Nurse Forum is?**

1	It will be difficult now Liza has gone. Giving plenty of notice for future sessions	Mar 5, 2013 4:49 PM
2	it would be beneficial if a list of dates/venue/time and topic along with speaker was planned for the coming 4-6 months. shows clear structured meaningful planning. time to plan to attend	Mar 5, 2013 12:40 PM
3	more sessions	Mar 5, 2013 11:04 AM
4	not able to attend some of the forums should be compulsory	Mar 5, 2013 9:12 AM
5	impossible to go as now at lunchtime evenings better for me	Feb 14, 2013 8:58 PM
6	Quite honestly i do not know.	Feb 14, 2013 2:44 PM
7	I am afraid I do not attend	Feb 14, 2013 10:29 AM
8	only been to x2 as had Practice meetings/hols or been at other training. Found them useful though. Day meetings suit me better compared to evening meetings. The length is ok for updates, but lunchtime meetings can constrain amount of learning that can be done.	Feb 13, 2013 12:06 PM
9	no time to go only nurse in practice need to be allocated time to go nurses should be allowed to attend at least every 2-3 month	Feb 13, 2013 9:48 AM
10	Its difficult to attend in the middle of the day though the agendas look very good.	Feb 13, 2013 8:34 AM
11	Difficult question as the numbers attending have been very low in recent times but finding a time that suits everyone is tricky. As many Practice Nurses are part time due to family commitments I would suggest avoiding meeting times during school holidays. The education element is useful but I think most of us would welcome more time to network & discuss day to day issues. An open discussion to share differing practice for certain types of patients/chronic diseases would be welcome. I work with other nurses but when I was a lone PN in a surgery I felt very isolated & often unsupported. Maybe interest could be increased by a private facebook group for Manchester PNs & occasional evening get togethers/meetings. Maybe we could have groups of local PNs that communicate regularly by email . Sometimes it feels like we are an apathetic bunch but I'm sure there are many/differing reasons for non-attendance- I hope that GPs /Managers support their nurses to attend but fear that some surgeries feel it is not essential.	Feb 12, 2013 5:31 PM
12	it is in the working day which it is difficult to get to. I have been a practice nurse for 24 years and for many years we held a group on the first tuesday of every month at the Alexander hospital. Lesly a practice nurse in south took over the role. She did it on a voluntary basis (charitable girl that she is) and it is very hard work getting sponsors for the evening. this role should have some kind of support and maybe even funding. it was held in an evening and was very successful	Feb 12, 2013 4:03 PM
