

Diagnosis of under 50s referred to memory clinics in Manchester 2013-4.
n=77

Geriatric depression scale – 4 item version

1. Are you basically satisfied with your life?
2. Do you feel that your life is empty?
3. Are you afraid that something bad is going to happen to you?
4. Do you feel happy most of the time?

- Score 2 + suggests depression
